

February 14th, 2008

We had a great "short" week here in third grade! In Language Arts, we were busy writing incredible stories of our own. We are very excited to share our stories with you! Next week we will focus on wrapping up theme 3 on Incredible stories. We will have a spelling test on Friday the 22nd which will be a review of words we have learned this theme. We will also be testing the skills we learned this theme with a theme test on Friday. They do not need to study for this! In Math, we will begin our next unit on multiplication and division. Over the weekend, please practice multiplication and division facts with your child. It will be very beneficial that he or she knows basic facts for our next unit. In Science, we will be finishing our unit on sound next week. We will test on Friday. Please have your child study his or her packet of notes and experiments. If you would like, you can check out the Foss website that I have on my webpage for extra practice. Please remember to keep doing your Lent intentions during this special season.

Don't Forget

- Pennies for Patients collection until February 28th. Please bring in coins and dollars to support the leukemia and lymphoma society.
- Yearbook forms are due February 22nd.

Check Grades

- Please check your child's grades on the OLG website this weekend. All missing assignments for the 3rd quarter so far should be listed.

Thanks!

Next Week

Monday	NO SCHOOL
Tuesday	Art & Spanish
Wednesday	Mass Library
Thursday	Computers & Music
Friday	Sound Test Theme 3 Test~ Incredible Stories Spelling Test PE, Music & Spanish
